

Honeywell Avionics DISPLAY UNIT PHASE 3A EXCHANGE PROGRAM

OVERVIEW

VSE is offering the opportunity to **upgrade** your Boeing 737/777 phase II, III, or IIIA Display Unit to a **Display Unit phase 3A**. This cost-effective flat rate exchange, offered by VSE, addresses obsolescence issues of older units, providing lighter weight, higher reliability, and lower operating costs.

OPTIONS AVAILABLE FOR CUSTOMERS

1. As a Honeywell authorized Service Center, VSE can perform BC, RP or OH of units sent in for repair
2. We can provide you with an upgraded DU3A (P/N 4091900-941/-942/-943/-944) as a **FLAT RATE EXCHANGE** for your core (DU1I or DU1II)

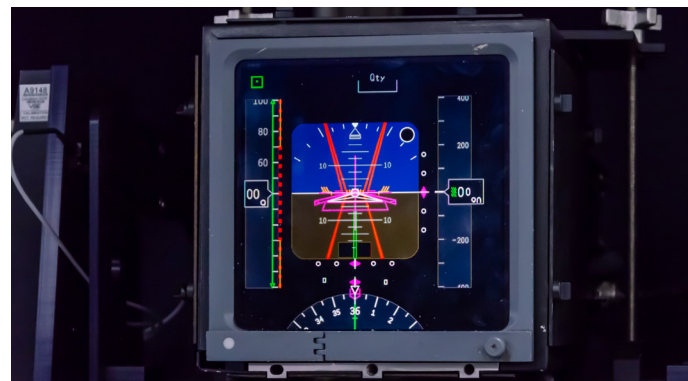

FEATURES & BENEFITS (WHY UPGRADE?)

- Increased Reliability, Less Repairs, MORE TIME ON WING
- Upgraded LCD Panel
- Brighter Display
- Improved Backlight Assy from Fluorescent lamp to LED Technology
- Provisions for future video interfaces
- Intermix of the DU3A, and all previous versions of the DU's permitted in service
