Customized Material Solutions

737NG Total Support

Program Overview

VSE Aviation combines our MRO and Distribution capabilities through our partnership with Southwest Airlines in which we offer unparalleled support on the 737NG platform for end-of-life asset management services.

This partnership allows VSE to offer a complete line of material solutions on both the airframe and QEC/engine accessories. This, coupled with our extensive component repair experience and Distribution relationships, will set the **new standard in aftermarket 737NG material support**.

Highlights

- Integrated material & repair solutions for 737NG / CFM56-7B
