VSE AVIATION

TRIUMPH Interiors
AFTERMARKET INSULATION SOLUTIONS

TRIUMPH INTERIORS

Cage Code: 1NVY1

OVERVIEW

VSE Aviation is now the exclusive distributor of Triumph Insulation Systems (TRIUMPH Interiors) semi-configured thermal-acoustic insulation assemblies and support materials used in commercial aircrafts, including all OEM platforms.

Exclusive Distributor Letter

PRODUCT FACTS

Insulfab® Semi-Finished Insulation Assemblies ('Strip Blankets')

- Semi-Finished assemblies and supporting materials compliant to FAA/EASA flammability regulations including 25.856 (a)
- Materials compliant to OEM specifications
- Flexible configurations - width, fiberglass densities and layers to meet the needs of the entire aircraft cabin

Support Materials

- Support materials married to semi-finished assemblies
- Insulfab® lineup includes:
  - Variety of grommet types and sizes
  - Tapes: repair and specially designed sealing tapes for part completion
  - Cover laminates as raw stock that meet FAA/EASA flammability regulations 25.856 (a) and (b) (available)

PRODUCT BENEFITS

- Triumph Interiors' Insulfab® quality and reliability
- Cost effective and simple to use
- Insulfab® products track record of excellence is supported by:
  - Approved EN/AS9100 Quality systems govern the entire production process
  - In-house FAA/OEM approved flammability test lab
  - Leading producer of thermal-acoustic insulation systems for the OEMs
  - Over 40 years' experience supplying and supporting the aerospace industry
