737NG/777 DISPLAY UNIT REPAIR & EXCHANGE SOLUTIONS

VSE Aviation Services offers full **repair** capabilities for your display units. If your unit is deemed Beyond Economical Repair (BER), we provide a cost-effective flat rate **exchange** for Boeing 737NG/777 Display Units (DU) Phase 2, 3, or 3A to a **new** Phase 3A (DU3A) unit.

- Exchange units in stock ready to support your fleet
- Cores eligible for program (4086850-921/-922/-923/-924, 4091900-941/-942/-943/-944)

Why Upgrade?

- Greater reliability with fewer repairs (more time on wing)
- Enhanced LCD panel performance
- Brighter, clearer display
- LED backlight replaces fluorescent technology
- Provisions for future video interfaces
- Intermix of the DU3A, and all previous versions of the DU's permitted in service
- Parts obsolescence
